

**Australasian Conference of Digital Orthodontics
October 26-28, 2017 – Sydney, Hilton Hotel**

EXCLUSIVE INVITATION

Australasian Conference of Digital Orthodontics

Hilton Hotel, Sydney

Dates: 26-28 October 2017

Designed specifically for orthodontic specialists and team members. This is an exclusive 3-day program combining hands-on training courses and conference program focusing on digital orthodontic applications. This program is unique of its kind and will provide practical insights as well as clinical experience from key experts relating to digital orthodontics workflows.

Program Highlights

Hands-on Workshops (8 CPD hours each)

October 26th 2017 – Introduction to Digital Orthodontic Applications

Presenter: Mr Ari Sciacca

This one day practical workshop is designed for participants to master the basic principles of digital orthodontics. Consisting of 12 learning modules topics include:

- Digital archiving of cases
- Intraoral scanning
- Case analysis and reporting using Ortho Analyser
- Combining CBCT data and model data
- 2D image overlays
- How to treatment plan in Ortho Planner
- Simulate orthodontic treatment plans
- Treatment monitoring and patient communication

October 27th 2017 – Advanced Orthodontic Applications using CAD/CAM Technology

Presenter: Mr Ari Sciacca

A pre-requisite for this advanced program is Introduction to Digital Orthodontic Applications. This hands-on advanced workshop expands on the applications delivered on the first day to include:

- Digital aligners and attachments; treatment planning through to manufacturing
- Virtual set-up scenarios with a variety of cases
- Digital labial indirect bonding
- Introduction to 3D printing and in-clinic manufacturing

Participants can select to attend one or both workshop training days. All participants will have access to real case presentations and exercises. Numbers are strictly limited for the workshops due to the extensive hands on component.

Australasian Conference of Digital Orthodontics

Main Podium Conference Program (8 CPD Hours)

October 28th 2017

Featuring international and local experts in the field of Digital Orthodontic applications this one day lecture program will feature the most up-to-date innovations and workflows enabled by digital solutions.

This program is specially designed for any orthodontic specialist and their team members involved or looking to incorporate digital workflows into their practice.

Highlights include:

- The latest Innovations in Digital Orthodontic Solutions
- Indirect bonding in a Digital Workflow
- Multidisciplinary Case Management
- Digital Treatment Planning
- Anchorage Modalities
- In-house Manufacturing using 3D Printing

The day will conclude with a cocktail party in the exhibition area.

Pricing:

1 Day of Training - \$990.00+GST

2 Days of Training - \$1499.00+GST

Conference Day* - \$495.00+GST

*special price for Orthodontic Auxiliary - \$295+GST
