

**CONFERENCE of IMPLANT RETAINED  
DIGITAL DENTISTRY**

EXCLUSIVE INVITATION

# CONFERENCE of IMPLANT RETAINED DIGITAL DENTISTRY

## Intercontinental Sanctuary Cove Resort

**Dates: 22-24 September 2017**

This is an exclusive 2-day intensive training program will provide a practical insight into the most current digital techniques supporting full end to end workflows for implant retained restorations. The workflow including intraoral scanning, implant planning, CAD Dental Design and manufacturing will be demonstrated in detail accompanied by practical hands-on workshops.

Hands-on workshops will cover the following exercises:

- Intraoral scanning and utilization of CT scan data
- Digital implant treatment planning
- CAD design full contour implant retained restoration
- Take the surgical guide from virtual design to 3D printed product
- Guided surgery protocols
- Manufacturing temporary restoration

Participants will follow the full workflow from scanning to planning and 3D printing a surgical guide.

Conference is included with the purchase of TRIOS 3 Intraoral Scanner through Dental Axxess valued at \$3500\*

Inclusions:

- 2 days' tuition
- Accommodation 2 nights Intercontinental Sanctuary Cove Resort
- All meals including Welcome Reception Friday 22<sup>nd</sup> September, Dinner 23<sup>rd</sup> September, breakfasts and lunches.

*\*terms and conditions apply excl. GST*

This workshop has strictly limited places due to the extensive hands on component of this program.

## Speaker/trainer:

### Dr. Jan Paulics (Sweden)

Dr. Jan Paulics received his DDS from Karolinska Institute, Stockholm in 1993. He has practiced in both municipal and private dental clinics specializing in implant surgery and dentoalveolar surgery with a focus on prosthetic driven surgery using digital planning tools and surgical guides for the past 10 years. Jan has worked for the Swedish state as project manager for acquiring and implementing practice management solutions. Most recently working as an oral surgeon for the Eastman Institute in Stockholm, Jan is currently an Application Specialist at 3Shape. He continues to lecture for implant manufacturers and dental laboratories.
